7 October, 2021

Fillmore & Piru Basins Groundwater Sustainability Agency  
P O Box 1110  
Fillmore, CA 93016

Dear Fillmore and Piru Basin Groundwater Sustainability Agency,

We have reviewed the Fillmore and Piru Basin Groundwater Sustainability Plans through various means. We requested that our Consulting Hydrogeologist Bryan Bondy review the GSPs and prepare his comments. We held a membership meeting on 14 September 2021 and Bondy presented his comments and feedback to our membership. A robust discussion ensued, and we subsequently requested Bondy to prepare formal comments on our behalf.

Please find enclosed the comments.

We would like to take this opportunity to thank the GSA for being so diligent and thoughtful throughout the entire GSP process, ensuring all stakeholders' feedback was heard and considered.

Sincerely,

Gordon Kimball  
President  
Fillmore Basin Pumpers Association
